## PROJECTS

---

### Detect Neoplasm

This web app combines React and Flask to manage hospital tasks, including patient records and appointments. It also integrates a CNN for brain tumor detection from MRIs, ensuring a responsive interface and accurate diagnoses for timely treatment planning.

### HRM SYSTEM

Our HRM system, built using the MERN stack and styled with Tailwind CSS, streamlines human resource management. It facilitates employee data management, payroll processing, and performance tracking with a modern and responsive interface, enhancing HR efficiency.

### Real Estate Management Website

A real estate marketing website, developed using React and powered by SQL database, offers a visually appealing platform for showcasing properties and attracting potential buyers

### Pharmacy Management System

Our pharmacy management system, based on .NET and SQL, automates inventory, prescription, and sales tasks. Its user-friendly interface improves workflow efficiency for seamless pharmacy operations.

## CERTIFICATES

---

### Web Development Bootcamp By Angela Yu

The web development bootcamp provided comprehensive training in HTML, CSS, JavaScript, Node.js, and databases. I gained skills to create interactive websites, build responsive layouts, add functionality, and deploy web applications, gaining practical experience in both front-end and back-end development.
