SUMMARY

I am a dedicated and passionate Full Stack Developer with a strong drive for continuous improvement and problem-solving. Based in Islamabad, Pakistan, I am actively seeking leadership opportunities to optimize design and leverage my technical and managerial skills. With extensive experience in full-stack web development, specializing in MongoDB, Express.js, React.js, and Node.js, I thrive in collaborative environments and consistently deliver high-quality projects. I am committed to staying updated with industry trends and contributing to the success of cross-functional teams.
